SUMMARY

Frontend-focused Software Engineer & upper-level undergraduate with a proven track record designing high-performance web solutions, from memory-efficient client-side graph routing systems to hybrid data architectures (SQL/MongoDB). Combines technical engineering principles with robust soft skills gained during 8+ months of professional operational experience in the US. Scrum Fundamentals Certified. C1 English. Comfortable across the full stack (JS/TS, React, C#) with a dedication to shipping optimized, scalable interfaces.

EXPERIENCE

Woodstock Inn & Resort (Saskadena Six Ski Area)

South Pomfret, Vermont, USA

Luxury hospitality and alpine recreation resort in New England

Lift Operator (Seasonal Contract)

Dec 2024-Mar 2025/Dec 2025-Mar 2026

- **Risk mitigation:** Strictly enforced operational safety protocols to ensure zero-incident workflows.
- **Problem solving:** Diagnosed and resolved operational incidents in real time under dynamic conditions.
- **Communication fluency:** Delivered articulate, real-time direction and coordinated closely with native English-speaking teams to manage guest expectations under fast-paced conditions.

[Woodstock Inn & Resort Employment Record](#)

Cumberland Farms

Woodstock, Vermont, USA

High-volume regional convenience and retail chain in New England

Retail Sales Associate (Seasonal Contract)

Dec 2025-Mar 2026

- **Data & system management:** Operated point-of-sale (POS) and inventory tracking software, monitoring stock metrics to ensure data accuracy and seamless retail operations.
- **Efficiency under pressure:** Optimized checkout throughput during high-volume peak hours, maintaining high processing speed and precision under tight time constraints.
- **Process compliance:** Strictly executed corporate auditing standards, cash management protocols, and legal regulations with zero discrepancies.
- **User-centric communication:** Cultivated genuine, positive client relations through articulate interaction, resolving fast-paced customer inquiries with strong interpersonal skills.

CERTIFICATIONS

- ScrumStudy: Scrum Fundamentals Certified
- MongoDB University: Introduction to MongoDB
- Coursera: Learn SQL Basics for Data Science (University of California, Davis), Cybersecurity Analyst (IBM), IT Support (Google), Blockchain Specialization (University at Buffalo), Applied Data Science with Python Specialization (University of Michigan), Brand Management (Tecnológico de Monterrey).

PROJECTS

EcoCrop Landing Page — HTML5, CSS3, JavaScript (ES6)

<https://eco-crop-landing-page.vercel.app>

Developed a responsive, mobile-first landing page targeting Latin American agricultural segments, engineering an intuitive, accessible UI tailored for non-technical demographics aged 25–60. Strategically optimized frontend architecture, critical rendering path, and asset compression to guarantee fast load times and seamless interactivity under low-bandwidth, high-latency rural network conditions.

ZooData Systems — Microsoft SQL Server, MongoDB, SQL (DDL/DML), NoSQL

[Full Academic Project Record and Report](#)

Co-architected a hybrid database system combining SQL Server and MongoDB to seamlessly orchestrate structured enterprise operations alongside dynamic data streams. Designed optimized SQL scripts (DDL/DML) ensuring rigorous

data integrity and normalization, while engineering document-oriented NoSQL schemas leveraging embedded patterns and JSON Schema Validation to structure real-time data into flexible, production-ready JSON payloads.

Medical Reference Route Optimizer — JavaScript (ES6+), HTML5, CSS3, Graph Algorithms

<https://aplicacioncomplejidadalgoritmicakh.vercel.app>

Modeled a georeferenced national healthcare network as a directed, weighted graph of 1,724 nodes and 6,640 pathways via the Haversine formula. Implemented client-side pipelines executing Dijkstra's algorithm for multi-criteria routing, alongside MST and Connected Components. Structured a zero-backend architecture for static hosting that processes datasets entirely in-memory, satisfying strict performance constraints of <3 seconds response times.

EDUCATION

Universidad Peruana de Ciencias Aplicadas (UPC)

B.Eng. Software Engineering

Relevant coursework: Web Applications, Human-Computer Interaction (HCI), Database Design, Software Design & Patterns, Algorithms & Data Structures, Software Architecture, English Academic Writing.

Lima, Perú
2022 - 2027

Asociación Cultural Peruano Británica (BRITÁNICO)

Advanced English Program (CEFR C1)

Completed Basic, Intermediate, and Advanced communicative phases.
Honors: 90+ Overall Score.

Lima, Perú
2020 - 2022

SKILLS

Technical Skills:

Languages: JavaScript (ES6+), C# (.NET), Python, C++, Dart, SQL, HTML5, CSS3.

Frontend: React, Angular, Vue.js, Tailwind CSS, Responsive Web Design, UI/UX (Figma)

Backend & Databases: C# Backend Development, SQL Server, MySQL, MariaDB, MongoDB.

AI & Workflow Optimization: Advanced Prompt Engineering, Vibe Coding, AI-assisted software development, intelligent chatbot integration.

Tools & Mobile Ecosystem: Git/GitHub, Microsoft Azure, WebStorm, VS Code.

Methodologies & Architecture: Scrum/Agile Frameworks (Sprints, User Stories), Domain-Driven Design (DDD) theory, Agile Project Management.

Soft Skills & Professional Strengths:

Leadership & Collaboration: Agile team leadership, cross-functional collaboration, team motivation, conflict resolution, mediation & negotiation.

Communication & Client-Facing: Advanced technical and formal writing (impeccable grammar), high-empathy customer relations, stakeholder communication.

Core Competencies: Analytical problem-solving, meticulous time management, high professional ethics, accountability, and adaptability.

Cross-Cultural Relations: Exceptional interpersonal skills and intercultural communication, delivering high-tier client service and relationship building seamlessly in professional English environments.

LANGUAGES

Spanish (Native) | English (C1)

VOLUNTEER

Asociación KP

Volunteer Animal Care Assistant

Lima, Perú
July 2023

- Executed strict daily care protocols and conducted routine health/status checks, maintaining high attention to detail and procedural compliance under supervision.
- Coordinated closely with cross-functional volunteer teams to optimize shelter logistics, manage resources, and facilitate community awareness events.
- Contributed over 20 hours of dedicated service in a fast-paced environment, receiving a Special Commendation and the Community Impact Achievement award.
